

Math 320 Activity 21

October 17, 2005

1. Find two ratios equivalent to $2 : 7$.
2. Suppose you have blue, green, and white marbles. The ratio of the number of blue marbles to the number of green marbles to the number of white marbles is $5 : 2 : 3$. If there are 90 blue marbles, then how many marbles are there together?
3. Make up a word problem involving ratios.
