Math 46 Homework Assignment (10/28 – 11/02)
Assignment will be due on 11/09 next Tuesday during the lecture.

Key notions introduced this week:
(1) Second-order homogeneous Linear equations with constant coefficients;
(2) Simple method of undetermined coefficients.

Homework problems:
Chapter 9. 17, 18, 21, 23, 24, 30;
Chapter 11. 15, 20, 21.
